SECTION 1: INTRODUCTION

The Alabama Department of Revenue (Department), in conjunction with the Internal Revenue Service (IRS), will begin accepting Alabama Corporate Income Tax (20C) returns and corresponding forms and schedules for tax year 2005 by using the IRS' Modernized E-File system (MeF). The transmission method will be a Web Service using Simple Object Access Protocol (SOAP) with attachments messaging. The return data will be formatted using Extensible Markup Language (XML). Authorized E-File providers, also known as Electronic Return Originators (ERO's) can submit returns to the IRS MeF system for federal and state return processing. State returns can be submitted as a federal return with a state return attached, called a "Fed/State" return, or as a state return, known as a "State Only" submission. Each return (Fed/State or State Only) must be in a separate submission. Multiple submissions may be contained in a single message payload. Software developers must test with the department and receive approval prior to submitting live Fed/State or State-Only returns.

SECTION 2: Version Control for Schemas and Business Rules

Each tax return transmission file, and acknowledgement file has a corresponding XML schema and a respective set of business rules that are used to validate the filed tax return. Each XML transmission file schema, XML schema, and business rule document has a separate version number. It is important to note the following principles regarding version numbers:

The transmission file's schema version (number) and the tax return(s) schema version number may be different.   The tax return's schema version number and its associated business rule number will be the same. This ensures that a set of rules enforce the appropriate schema version.

Each business rule document's version number identifies the version of the business rule.   The version number on the set of rules dictates the schemas for which the rules are enforced and the version number on the schemas dictates which rules should be invoked for that schema version.

The "Active Validating Schema Version" specifies the business rule and schema version that will be used to validate a tax return that has been received by the IRS during a timeframe. This provides a mechanism for different versions to be accepted at the same time. It also enables an older version to be validated against a newer version's set of schemas and business rules. The IRS will publish all valid schema/business rule versions and the versions that will be used to valid it.

VERSION NUMBERING SCHEME:

The version number includes the tax year for which the schema and business rule document applies (YYYY), the version initial (v), and the four-digit version number (NN.NN). Note: The version initial is case sensitive. The version number of MeF business rules that are invoked for the MeF XML schemas will always have the same version number as the schema version, thereby, providing a mechanism that aligns the various versions of schemas with their applicable business rules. The structure of the version number and a few examples are given below:

<div align="center">

2004v1.0
2004v1.1
2005v1.0
2005v1.1

</div>

The version number will change with each new tax year and each tax year's subsequent changes. New versions are generated with changes to the tax return's XML schema structure, content, and business rules. These changes will increase the version number when the new version is published. Major changes will increase the left digit and minor changes increase the right digit. This includes the following:
- A new tax year. The tax year part of the version number will change with each subsequent tax year and the version number is reset to 1.0.

• Additions, deletions, and updates to a schema's data elements. This includes any schema modification to a form and/or attachment. Even if the tax return's business rules were not affected by the additions, deletions, and updates to the tax return's schemas, the business rule's version number will be changed to maintain the alignment between the MeF schemas and the applicable business rules.

• Additions and deletions to the business rules. Even if the business rule change(s) did not affect the tax return's schema, the tax return's schema version will be changed to maintain the alignment between the tax return's schema and the applicable business rules. The valid versions for all MeF tax return schemas and business rules may differ since each tax return represents a separate schema-business rules combination. A schema and/or business rule change to a tax return may not affect another tax return. In this case, the other tax return types may not need to be changed.

How does MeF use Versions?

The return data shall contain the return version used to compose it. The IRS shall publish the schema version that will be used to validate the return, called 'active validating schema version', at any point in time during the processing year. The returns can be filed using any published schema version. They will be validated against the 'active validating schema version' at the time the return is processed. If the return data conforms to the rules enforced by the 'active validating schema version', it will be accepted.

SECTION 3: CHANGES FOR TAX YEAR 2005

Tax Year 2005 is the first tax year made available for Corporations to electronically file their income tax return. Initially, Alabama will only accept one return each filing season, any subsequent filings such as additional short year returns and amended returns must be filed by paper.

Corporations electing to electronically file their Alabama Corporate Income Tax return must also electronically pay their tax liability. The Department offers three electronic payment options; Electronic Funds Transfer (EFT), Electronic Check (E-Check) and Credit Card. See Section 12 Electronic Payment Options.

SECTION 4: CONTACT INFORMATION

This publication provides information necessary for the development of software intended for use by businesses and individuals to electronically file Alabama Corporate Income Tax returns. Our goal is to maintain open lines of communication to assure the success of your software and the electronic filing program for the state of Alabama. You are invited to contact us with any question or comment you have regarding our Corporate Income Tax Electronic Filing Program. For best possible service, please choose the appropriate contact carefully.

SECTION 5: ACCEPTANCE AND PARTICIPATION

APPLICATION TO PARTICIPATE
The following information must be provided to department prior to submitting test transmissions:

- Software developer company name

- Address

- EFINs/ETINs (test and production) assigned by Internal Revenue Service

- Primary Contact person – name, telephone number, email address

- Secondary Contact person – name, telephone number, email address

- TY 2005 Alabama forms supported for Corporate E-File

- Alabama items and forms NOT supported for E-File.

- Software Developer Code. Provide a separate code for each software product (web-based, professional desktop or desktop individual taxpayer).

Information may be faxed or emailed. Receipt and acceptance of the required documentation identifies the developer as interested in participating in the federal/state electronic filing program for Alabama. It provides the opportunity to initiate developing, testing and obtaining software approval with the department. It does not represent acceptance of any software nor does it confirm the accuracy of any software developed.

SECTION 6: DEVELOPER RESPONSIBILITIES

ERO's and transmitters must be approved with the IRS in order to submit Fed/State or State Only returns.

CONFIDENTIALITY
Unauthorized access or disclosure of confidential taxpayer information will result in severe Federal and Alabama criminal and civil penalties. In accordance with Code of Alabama, 1975 §40-2A-10 disclosure of confidential information in violation of this statute is a class A misdemeanor.

COMPLIANCE
Alabama participates in the federal/state electronic filing program. Therefore, any software developed must meet *all* federal *and* state requirements. The following guidelines compliment IRS. Alabama publications are not intended to alter or amend the IRS requirements.

- Comply with all federal and state procedures, requirements and specifications as defined in the following publications:

AL4164 - *Software Developers and Transmitters Guidelines and Schemas for Alabama Corporate Income Tax Returns*
Alabama Department of Revenue
Tax Year 2005

Page 6 of 42

- Alabama Publication AL4164 - *Software Developers and Transmitters Guidelines and Schemas for Alabama Corporate Income Tax Returns*
- Alabama Publication AL4164A - *Alabama Corporate Income Test Package*

- Successfully complete all testing.

- Develop tax preparation software in accordance with statutory requirements and department return preparation instructions.

- Provide accurate Alabama income tax returns in correct electronic format for transmission.

- Software must be capable of producing a printed copy of the complete filing for the Electronic Return Originator (ERO) and/or taxpayer.

- Provide data validation, verification, and error detection to prevent transmission of incomplete, inaccurate or invalid return information.

- Developed software is not to support electronic filing (transmission) of any form not approved for electronic filing by the department.

- Developed software must prevent electronic transmission of returns and/or supporting documents or schedules not approved for electronic filing by the department. This is inclusive of those not supported for electronic filing as well as those supported but not successfully tested and approved by the department.

- All software developers are required to test their software with Alabama test data, and only software which has been tested and approved by the department may be used for Alabama electronic filing. The department will reject all electronic returns submitted that are prepared using unapproved software.

Important: Software providers must be available to correct any software errors which may occur after production begins and work closely with the department to follow up on any processing issues that may arise during filing season. If the software providers must re-release corrected software it should be done in a timely manner and proper notification should be made to all customers. Alabama software approval can be revoked if the software produces returns which are not in compliance with these specifications and the software company fails to correct the problem upon receiving notice from the department. The department also reserves the right to request a copy of the final version of the Alabama approved software.

SECTION 7: SOFTWARE ACCEPTANCE, TESTING AND APPROVAL

Testing of software developed for electronic filing is mandatory. The department is committed to providing software developers with quality feedback during the testing process. In order to ensure quality service to the software developers during the busy testing season, software developers are encouraged to transmit their first tests as soon as possible after January 1, 2006. The Beginning test date is subject to IRS availability and is subject to change. Notification will be provided if the beginning test date changes.

All software must be tested using state scenarios. The department test package (Alabama Publication AL4164A) will be available at www.revenue.alabama.gov/incometax/corpefilemain.htm by December 15, 2005 includes:

AL4164 - *Software Developers and Transmitters Guidelines and Schemas for Alabama Corporate Income Tax Returns*

Page 7 of 42

- Version number of Schema

- Alabama Specific XML Schema

- State Spreadsheet of required data elements.

- PDF copies of State test returns

- Product used to validate schema

- Spreadsheets of any special test conditions

Developers must include edits and verifications based on the business rules provided for each element.   The department's state spreadsheet will include information on field type, field format, length, if it can be negative, if it is recurring, and the business rule or other edits and verifications for each field. Developers must closely follow the requirements for each field to insure proper data formatting.

All schedules, forms, and occurrences should be supported in order to maximize this service.

Developers will be given formal confirmation when software has been successfully tested. Only approved software may be released and distributed by the developer.

Test scenarios will incorporate/utilize the federal test scenarios. Exceptions to the federal scenarios will be noted within the state's test segment. Testing is to include retrieval of state acknowledgements.

Any developer wishing to conduct testing in addition to the scenarios supplied and required by the department must obtain approval to do so prior to test submission.

Approval of software for electronic filing *does not* include approval of any form developed/produced for hardcopy submission to the department. The Individual & Corporate Tax Forms Officer must approve all Alabama tax forms.

MONITORING AND SUSPENSION
The department will monitor the quality of electronic transmissions. If the quality is unacceptable, The department will contact the electronic filer, software developer or transmitter. The department will also monitor complaints about electronic filers and issue warning or suspension letters as appropriate. The department reserves the right to suspend the electronic filing privilege of any electronic filer, software developer or transmitter who varies from the requirements, specifications and procedures stated in this guide or any corresponding administrative rules, or who does not consistently transmit error-free returns. When suspended, the electronic filer, software developer, or transmitter will be advised of the requirements for reinstatement into the program.

SECTION 8: ACKNOWLEDGEMENT SYSTEM

The department will generate an acknowledgement for all returns received. The acknowledgement record/XML schema format is included in this publication. The Alabama acknowledgement types are:

ACCEPTED

This acknowledgement indicates the electronic return was received and successfully completed the pre-entry validation process. No further action is required regarding the transmission.

REJECTED

This acknowledgement indicates the electronic return was received and failed to successfully complete the pre-entry validation process. The acknowledgement will contain a code indicating the error causing the rejection. The error condition must be corrected and the return can then be re-transmitted as a "State-Only" or corrected and submitted as a paper return.

See Appendix III for Alabama Error Reject Codes. Also see the business rules document for field length specifications and other business rules including **Validation Error Codes** and descriptions on the department's web site at www.revenue.alabama.gov/incometax/corpefilemain.htm.

AL4164 - *Software Developers and Transmitters Guidelines and Schemas for Alabama Corporate Income Tax Returns*

Transmitters and software developers should allow 5 days to receive the State acknowledgement before contacting the department.

ERROR CATEGORIES

All MeF business rules are divided into 12 error categories. The first eight categories validate the XML data:

1. Multiple Document – more than the required number of documents are included in the tax return.
2. Missing Document – a tax return document is required but was not included in the tax return.
3. Data Mismatch – the data in two fields should be the same but is not. For example, if MultiSateCorpPercentage is checked on AL Form 20C, Lines 1-14 should be blank; Line 15 (StateIncomeTax) shall equal Schedule D-2 Line 4 (TaxDueOnGrossReceipts). If MultiSateCorpPercentage is checked and StateIncomeTax is not equal to TaxDueOnGrossReceipts then you will receive error message: MultiSateCorpPercentage was checked, Lines 1-14 should be blank and Line 15 (StateIncomeTax) shall equal Schedule D-2 Line 4 (TaxDueOnGrossReceipts).
4. Duplicate Condition – the tax return or the transmission file was previously received and accepted by the Department.
5. Math Error – the result of a computation is incorrect.
6. Incorrect Data – data violates a business rule even though it is syntactically correct. That is, the data values for elements must conform to the format specified and the data type. Also, the data values for elements must contain only values allowed for them in the schema.
7. Missing Data – data is not provided for a required field.
8. Database Validation Error – data provided does not match the IRS database or the data provided should be present in the IRS database but is not. (E.g. the Electronic Filing Identification Number (EFIN) in the Return Header must be listed in the MeF database and in accepted status.)
9. XML Error – the data violates Schema specification. The return and transmission documents must conform to the version of the XML schema they specify.
10. System Error – a return encounters a problem with the IRS systems that prevents the return from being processed electronically.
11. Unsupported – a submitted item(s) is sent to a location that does not accept it or an unusual condition is encountered in the data.
12. Not On Time – a document is received after the due date.

SECTION 9: GENERAL INFORMATION

THE DEPARTMENT WILL ACCEPT THE FOLLOWING RETURN TYPES:

- Fed/State Original
- State Only

The E-File Program works best when the Federal and State returns are filed together in one transmission to the IRS (although this is not always possible). Upon receipt, the Internal Revenue Service will validate and verify the federal return data. The IRS will either accept or reject the federal return. The state return is only available to the department after the federal return is accepted by IRS. If a Fed/State submission is rejected by IRS, the state will not receive the state return portion. The Fed/State submission must be re-submitted.

State-Only Electronic Return Transmissions - IRS provides the ability for an ERO or individual to transmit/retransmit a state return through the fed/state system without simultaneously transmitting a federal return. There is no difference in the transmission sequence. State-Only returns are transmitted to IRS, validated and made available for states to download in the same fashion as with the traditional fed/state transmission. This provides a means for individuals who file multiple state returns to have each participating state's return electronically filed. However, each state return must be transmitted separately. The taxpayer's federal return must be completed, transmitted and accepted by IRS before transmitting/re-transmitting a State-Only return.

Page 9 of 42

SUPPORTED ALABAMA FORMS:
 The department will support the following forms and schedules for Corporate return processing:
- Alabama Form 20C (Schedules A, B, C, D-1, D-2,E, F, G)
- Alabama Schedule 20C AS
- Alabama Schedule 20C AAGIS as a binary attachment
- Other schedules as binary attachments

The complete federal return and the necessary supporting schedules (such as Schedule D and Form 4797) are required to be submitted in XML or PDF format along with the Alabama return. Failure to attach the complete federal return with the necessary supporting schedules may result in the imposition of delinquent penalties.

EXCLUSIONS FROM CORPORATE ELECTRONIC FILING INCLUDE:
- Returns for a Tax Year prior to 2005
- Amended returns
- 52-53 week filer returns
- Name Change Returns
- Alabama 20S S-Corporation Income Tax Returns
- Alabama 20E – Extension Requests

Initially, Alabama will only accept one return each filing season, any subsequent filings such as additional short year returns and amended returns must be filed by paper.

*Legal Due Date is the 15th of each month.				

TIMELINESS OF FILING
The receipt date of the electronic transmission will constitute the receipt date of the return if the return is acknowledged as accepted by the department. Any return **not** acknowledged by the department as "accepted" is considered not filed.

After an electronic return is acknowledged as accepted, it cannot be recalled, intercepted or changed in any manner. If either the ERO or taxpayer wishes to change any entries on an accepted electronic return, an amended paper return must be filed.

DECIMAL PLACES FOR RATIOS AND PERCENTAGES:

AL4164 - *Software Developers and Transmitters Guidelines and Schemas for Alabama Corporate Income Tax Returns*

Page 10 of 42

Ratios and percentages will use two positions in front of the decimal and up to 6 decimal places.
Examples: 100% = 1.000000
                      37.3% = 0.373000

SECTION 10: BINARY ATTACHMENTS

The tax return may also include non-XML documents, known as "binary attachments", submitted in PDF format. These attachments are included at the Unitary, Consolidated, and Parent/Subsidiary levels. This allows taxpayers to provide requested documentation that include required signatures and third party documents as required by forms and instructions (AL8453-C signature document, signed copy of lease, signed appraisal statement, etc).

Tax preparation software must use the following names for binary attachments because they will be validated by business rules.

Required Binary Attachments	Required Binary Attachment Title
AL-8453C Corporate Income Tax Return Declaration for Electronic Filing	AL8453C.pdf
Copy of the Federal submitted to the IRS (Form 1120, 1120A, 1120F, 990T, etc)	Federal1120.pdf / Federal1120A.pdf / Federal1120F.pdf, Federal990T.pdf

If required to attach a detailed schedule of Other Income.	OtherIncome.pdf
If required to attach a schedule of Other Property for Schedule D1.	SchD1OtherProperty.pdf

SECTION 11: SCHEMAS AND TRANSMISSION SPECIFICATIONS

SCHEMAS
The department will use the Fed/State 1120 Deployment Team Super Schema, developed by various states in partnership with the IRS and Software Developers. A copy of the Super Schema can be found at www.irs.gov/efile/article/0,,id=140378,00.html and the Alabama state specific schema can be found at www.revenue.alabama.gov/incometax/corpefilemain.htm.

Software developers should apply data from the spreadsheet or tax forms to the appropriate data element from the XML schema.

All XML data must be well formed.

TRANSMITTING THE RETURNS

AL4164 - *Software Developers and Transmitters Guidelines and Schemas for Alabama Corporate Income Tax Returns*
Alabama Department of Revenue
Tax Year 2005

Page 12 of 42

Authorized E-File providers can transmit returns to the IRS MeF system for Federal and State return processing. State submissions can be made as a Federal return with a State Return attached, called a Fed/State return, or just a State return, known as a State Only submission. Each return (Fed/State or State Only) must be in a separate submission. Multiple submissions can be contained in a single message payload.

Packaging of data and transmission payload must be in the proper format.

Returns filed in XML format with SOAP attachments allow for binary attachments to the submission. These attachments may consist of Signature documents, balance sheets, statement records, or other types of documentation. The allowed file type for attachments is file extension .PDF. The file order of attachments and procedures must follow IRS requirements for binary attachments as found in IRS publication 4163. The department will allow for binary attachments to the state return.

Send data elements only if they contain data values. Do not send empty data elements (i.e., zero financial fields, unused elements, etc.).

Other Packaging Guidelines:

- A submission contains either an IRS return or a state return

- Each submission is a separate file.

- Each federal return must be submitted in the agreed upon IRS XML format.

- Each state return must be submitted in the XML format specified and agreed to by IRS, state agencies, transmitters, and software developers. The Fed/State 1120 Deployment Team State Super-schema can be downloaded from the IRS' web site at www.irs.gov/efile/article/0,,id=140378,00.html.

- Each state return must include a copy of the FEDERAL RETURN as submitted to the IRS and any attachments associated with that federal return. If the taxpayer is included in the federal return of a consolidated group, a copy of the pro-forma FEDERAL RETURN for the company must be included along with the first four pages of the consolidated federal return.

- If the IRS rejects a Fed/State submission, the state will NOT receive the state return portion. The Fed/State submission must be resubmitted.

- Each submission must be in Zip Archive format.

- No nesting of Zip archive files or returns will be allowed. (i.e. one submission, one zip.)

- The SOAP message itself must not be compressed or zipped.

- The message contains a header, a body, and an attachment. See Modernized E-File Logical ICD Model for message layout and message technical specifications.

- ERO's and transmitters must be approved with the IRS in order to submit Fed/State or State Only returns.

- The department will produce an acknowledgement of acceptance or rejection for each state submission. The transmitter may then retrieve the department's acknowledgement from the IRS.

SECTION 12: ELECTRONIC PAYMENT OPTIONS

ELECTRONIC FUNDS TRANSFER (EFT):
Mandatory use of EFT - Section 41-1-20, Code of Alabama 1975, as amended, provides the department with the authority to require taxpayers making payments in excess of $25,000 to make those payments using the Alabama Electronic Funds Transfer (EFT) Tax Payment Program.

Voluntary Use of EFT to Make Tax Payments - Taxpayers not required to make EFT payments for a tax may elect to pay any or all taxes using EFT. Taxpayers making a voluntary election to make EFT payments for a

tax are subject to the same rules of the Alabama EFT Tax Payment Program as taxpayers required to make EFT payments.

There are two EFT Payment Methods available to Alabama taxpayers:

ACH DEBIT PAYMENT METHOD (www.revenue.alabama.gov/eft/eftdebit.pdf):
The ACH Debit payment method is the primary method used by taxpayers to make payments for a tax under the Alabama EFT Tax Payment Program. The process is safe, simple, and convenient, and the cost of processing ACH Debit payment transactions is borne by the department. Each individual EFT payment is only initiated upon the express authorization of the taxpayer. There are three methods of filing an ACH Debit Payment:1) Operated Assisted, 2) Touchtone Telephone Method, 3) Internet Method.

ACH CREDIT PAYMENT METHOD (www.revenue.alabama.gov/eft/eftcredit.pdf):
The department will allow taxpayers to use the ACH Credit payment method only if certain qualifying conditions are met. A taxpayer must request permission from the department to use the ACH Credit method and submit a written request, accompanying the EFT001 form, which demonstrates the existence of a valid business operational reason for using the ACH Credit payment method in lieu of the ACH Debit payment method. Taxpayer requests to use the ACH Credit method will be reviewed on a case-by-case basis. A taxpayer who is already using the ACH Credit method to pay taxes for other states is deemed to have a valid business reason for using the ACH Credit method to make payments for Alabama taxes.

The department reserves the right to revoke the ACH Credit method payment privilege of any taxpayer for the following reasons:
a) Failure to transmit consistently error-free payments
b) Substantial variation from the requirements and specifications of the rules of the Alabama EFT Tax Payment Program;
c) Failure to make timely EFT payments or to provide timely payment information; or,
d) Failure to provide the addenda record, required by the Alabama EFT Tax Payment Program, with the EFT payment.

To register for EFT taxpayers must complete the EFT:001 form entitled EFT Authorization Agreement Form, and mail or fax it to the department's EFT Unit. The mailing address and fax number are given at the top of the form. The EFT: 001 form and instructions can be downloaded from the department's Web site at www.ador.state.al.us/eft/eftindex.html.

ELECTRONIC CHECK (E-CHECK) – The department will accept electronic checks through Official Payments Corporation on the internet at www.officialpayments.com/echeck there is no fee for this service.

CREDIT CARD PAYMENTS – The department will accept credit card payments through Official Payments Corporation on the internet at www.officialpayments.com there is a convenience fee for this service. The fee is based on the amount of the tax payment and is paid directly to official payments corporation.

Software developers may interface their product to automatically send the payment information to Official Payments using a Simple Transaction Processor API provided by Official Payments Corporation. This API places no restrictions on programming language or platform because of its use of the standards of XML, HTTP, and SSL. To implement this functionality with your software product contact:

As with any corporate income tax return submitted to the Department on paper, an electronic corporate income tax return must be signed by an authorized corporate officer and the paid preparer, if applicable.

The AL8453-C "Corporate Income Tax Declaration for Electronic Filing" authorizes the origination of the electronic submission of the return prior to the transmission of the return. The Declaration includes the taxpayer's declaration that the return is true, correct and complete, as well as the taxpayer's Consent to Disclosure. The Consent to Disclosure authorizes the Department to disclose information to the taxpayer's Authorized IRS e-file Providers. Intermediate Service Providers, Transmitters and EROs are authorized by taxpayers to receive acknowledgement of receipt or reason for rejection of the electronic return from IRS. If the electronic return data on a corporate income tax return is changed after the taxpayer has signed the Declaration, the taxpayer must sign a new declaration if the amounts differ.

The Form AL8453-C must be completed and signed by all required parties and then scanned to create a PDF document. The PDF document must then be included as part of the electronic return as binary attachment named "AL8453C.pdf". The software must generate the AL8453-C and provide an interface or instructions for the user to including the scanned document with the electronic tax return.

See Appendix I for the AL8453-C

SECTION 14: ALABAMA CORPORATE INCOME TAX ELECTRONIC FILING REGULATIONS

****The following regulations have not been officially adopted as of this publishing.****

810-3-39-.07   Participation in the Federal/State Electronic Filing Program.
        (1)   The Department will participate with the Internal Revenue Service in the Federal/State Electronic Filing Program for the joint electronic filing of corporate income tax returns, effective for tax years beginning on or after January 1, 2005.

        (2)   The requirements of the Alabama Electronic Filing Program for software developers, electronic return originators and transmitters are stated in the Software Developers and Transmitters Guidelines and Schemas for Alabama Corporate Income Tax Returns, which is issued on an annual basis by the Department.

Authority: Sections 40-2A-7(a)(5) and 40-30-4, Code of Alabama 1975

810-3-39-.08   Requirements for the Alabama Electronic Corporate Income Tax Return.
        (1)   A complete Alabama electronic corporate income tax return will consist of data and supporting binary documents (such as .pdf documents) transmitted electronically. A complete Alabama electronic return must contain the same information as a comparable Alabama corporate income tax return as if filed entirely on paper.

        (2)   Corporations that electronically file their Alabama corporate income tax return must also pay their tax liability electronically.

        (3)   The transmission date of an Alabama electronic corporate income tax return will be used to determine timely filing of an electronic return in the same manner that the postmarked date is used to determine timely filing of a paper Alabama corporate income tax return.

810-3-39-.09   Requirements for the Corporate Income Tax Declaration for Electronic Filing.

(1)   The Corporate Income Tax Declaration for Electronic Filing requires the following information:

(a)   The corporation's name.

(b)   The corporation's Federal Employer Identification Number.

(c)   The corporation's address.

(d)   The Alabama taxable income reported by the electronic return.

(e)   The net tax liability reported by the electronic return.

(f)   The total tax payments reported by the electronic return.

(g)   The amount of the refund reported by the electronic return.

(h)   The amount of the payment transmitted electronically and the method of transmission (Electronic Funds Transfer, Online Payment or Credit Card Payment).

(i)   The signature of an officer of the corporation, their title and date of the signature.

(j)   The signature of the electronic return originator and date of the signature.

(k)   An indication whether the electronic return originator is self-employed.

(l)   The firm name of the electronic return originator.

(m)   The address, including the zip code, of the electronic return originator.

(n)   The federal employer identification number of the electronic return originator.

(o)   If the paid preparer is different from the electronic return originator, the following information is required:

1.   The signature of the paid preparer and date of the signature.

2.   An indication whether the paid preparer is self-employed.

3.   The firm name of the paid preparer.

4.   The address, including the zip code, of the paid preparer.

(2)   The signatures of the corporate officer, the electronic return originator, and the paid preparer (if the paid preparer is different from the electronic return originator) must be affixed to the Alabama Form AL8453-C - Corporate Income Tax Declaration for Electronic Filing before the return is electronically transmitted.

(a)   Members of the firm or designated employees may sign for the electronic return originator.

(b)   If the taxpayer is unable to obtain the paid preparer's signature on the Alabama Form AL8453-C, in lieu of the paid preparer's signature the electronic return originator may attach to the

810-3-39-.11 Acceptance into the Alabama Electronic Filing Program, Monitoring, and Revocation of Acceptance into the Program.

(1)   Electronic return originators and transmitters accepted by and in good standing with the Federal Electronic Filing Program are automatically accepted into the Alabama Electronic Filing Program.

(2)   Electronic return originators and transmitters accepted into the Alabama Electronic Filing Program serve as agents of the Alabama Department of Revenue, and must comply with the requirements of the program as stated in the Software Developers and Transmitters Guidelines and Schemas for Alabama Corporate Income Tax Returns.

(3)   The Alabama Department of Revenue will conduct random monitoring visits with Electronic Return Originators and Transmitters to verify that the requirements of the Alabama Electronic Filing Program are being met.

(4)   The Alabama Department of Revenue reserves the right to revoke the acceptance of an electronic return originator or transmitter for cause. Failure to comply with the guidelines set forth in the Software Developers and Transmitters Guidelines and Schemas for Alabama Corporate Income Tax Returns is considered just cause.

(5)   Any of the following can result in the revocation of an electronic return originator's or transmitter's acceptance into the program:

(a)   Conviction of a criminal offense under the revenue laws of any state or of any offense involving dishonesty, or breach of trust.

(b)   Failure to file timely and accurate tax returns, both personal and business.

(c)   Failure to pay personal tax liabilities or business tax liabilities.

(d)   Failure or refusal to effect corrective action as required by the Alabama Department of Revenue.

(e)   Other facts or conduct of a disreputable nature that would reflect adversely on the Alabama Electronic Filing Program.

(f)   Unethical practices in return preparation.

(g)   Suspension by IRS.
